

Paper and Oral Presentation

- Third author of 'Phenolic profiling and evaluation of nutraceutical potential of Syzygium cumini seed to down-regulate diabetes-An in vitro study' - **Frontiers in Pharmacology**.
- Oral presentation on the topic computational study of reverse proteins in International symposium **Bioinformatica indica 2016** on January 7-9 by Department of Computational Biology and Bioinformatics, University of Kerala

Work Going on

- Second author of "Making novel proteins from pseudogenes genes using computational techniques " in Journal of Bioinformatics
- First author of " Insilico Computing of the Most Deleterious nsSNPs in NFKBIA gene ".
- First author of "3D-CGR Prot -An online tool for protein domain identification "
